Past performance is not a reliable indicator of future performance.

n/a indicates that the investment option was not operating for the full period.

NOTES:

1. Total Returns are calculated based on exit prices of the investment option which are after tax and investment fees/indirect costs. Returns greater than one year are shown on an annualised basis.
2. Differences between returns for each path can reflect different underlying investment strategies, or where strategies are the same, the timing of cash flows in the establishment of Mercer SmartPath®.

This information is based on information received in good faith from sources we believe to be reliable and accurate. Any reference to legislation reflects our understanding of the legislation and is not a substitute for legal advice.

Before making any decision concerning the impact and application of laws to your circumstances, we recommend you obtain your own legal or other appropriate professional advice. No warranty as to the accuracy or completeness of this information is given and no responsibility is accepted by Mercer or any of its related entities for any loss or damage arising from any reliance on the information.

Past performance is not a reliable indicator of future performance. The value of an investment in Mercer Super may rise and fall from time to time. The investment performance, earnings or return of capital invested are not guaranteed.

Any advice provided is of a general nature and does not take into account your objectives, financial situation or needs. Before acting on any advice we recommend you obtain your own financial advice and consider the Product Disclosure Statement and Financial Services Guide available at **mercersuper.com.au**. The product's Target Market Determination setting out the class of people for whom the product may be suitable can be found at **mercersuper.com.au/tmd**.

The investment returns shown for Mercer Super investment options throughout this Investment Report do not take into account the unique characteristics applied to each investor (such as timing of cash flow). As a result, the actual investment returns applying to a particular investor may differ from the returns shown in this Investment Report. You should also remember that past performance is not a reliable indicator of future performance.
